

NICOLÁS NIEVAS

Full Stack Developer — Java · C# / .NET · React · Angular · REST APIs

Córdoba, Argentina | +54 9 351 789-6064 | nicoonievas7@gmail.com | linkedin.com/in/nievas-nicolas | github.com/NicolasNievas

PROFESSIONAL SUMMARY

Full Stack Developer with professional experience in C# / .NET and a strong backend focus, complemented by Java and Spring Boot in personal end-to-end projects. Experienced designing REST APIs, layered architecture, relational database modeling, and integrating with React, Next.js and Angular frontends. JWT authentication, Docker containerization, and Agile/Scrum teamwork. Associate Degree in Programming (UTN, graduated Feb 2026).

TECHNICAL STACK

Backend: C#, .NET Framework, ASP.NET Core, ASP.NET Web API, Java 17/21, Spring Boot, Node.js (fundamentals)

Frontend: React, Next.js, Angular, TypeScript, JavaScript ES6+, Tailwind CSS

Databases: PostgreSQL, Oracle, SQL Server — relational modeling, stored procedures, query optimization

APIs & Auth: REST APIs, JSON, JWT, Swagger/OpenAPI, Mercado Pago

Architecture: Layered architecture, microservices, design patterns

DevOps & tools: Docker, Git, GitHub, GitLab, Postman, Vercel

Testing: JUnit, Mockito

Methodologies: Scrum / Agile

WORK EXPERIENCE

Trasus Consulting — Backend Developer (.NET)

Feb 2025 – Dec 2025 · Córdoba, Argentina

- Built and maintained 15+ REST endpoints with C# and .NET Framework under layered (MVC) architecture.
- Modeled and optimized Oracle data structures using stored procedures, functions and triggers, and implemented the data access layer with Entity Framework.
- Integrated backend services with Angular and ASPX (WebForms) frontends across the full development cycle.
- Collaborated in an Agile/Scrum team using Git and GitLab: pull requests, code review and ticket resolution.

PROJECTS

Comanda Electrónica — Restaurant SaaS

Java 21 · Spring Boot · React · TypeScript · PostgreSQL · Mercado Pago QR

- Built a functional full-stack app end-to-end: 4 role-based interfaces (waiter, kitchen, bar, cashier) plus an admin dashboard with reports.
- Backend with Java 21 and Spring Boot + PostgreSQL; frontend with React and TypeScript.
- Integrated Mercado Pago QR (webhooks, payment states); architecture and product decisions made autonomously.

Coffee Craze — Ecommerce

Java 17 · Spring Boot · React · Next.js · PostgreSQL · JWT · Mercado Pago

- Designed 25 REST endpoints with layered architecture and implemented end-to-end JWT authentication.
- Modeled a relational database with PostgreSQL and persistence with JPA/Hibernate.
- Integrated Mercado Pago Checkout Pro for the full payment flow, from cart to order confirmation.
- Built the admin dashboard and frontend with React, Next.js and TypeScript.

Customer & Loyalty System

Java 17 · Spring Boot · Angular · Docker · JUnit / Mockito

- Built a customer and loyalty management system with a microservices architecture.
- Containerized the services with Docker to streamline deployment and scalability.
- Covered business logic with unit tests using JUnit and Mockito.

EDUCATION

Universidad Tecnológica Nacional (UTN) — Associate Degree in Programming — Graduated Feb 2026
